**Bloodborne Pathogens**

(Childcare) (English) (12 Minutes)

All teachers and child care providers should be trained in this important topic. First Aid is a normal function of providers when children get minor scrapes and small injuries, so it's extremely important to understand the basic of Bloodborne pathogens, for the protection of both providers and children.

**Hand washing and Bacteria**

(Childcare) (English) (16 Minutes)

This program is so important, it needed its own video. Yes everyone knows how to wash their hands, but do they really? In a child care environment, it is critical as young children do not have a fully developed immune system to protect them, so extra care and caution is imperative. What is the best hand drying method: Hot Air Blower, or Paper Towels? The answer may surprise you.
