

pk2000
Forklift & Material Handling Package

(General Industry) (English or Spanish)
(8 Programs and Written Materials)
Our complete Forklift and Material Handling training package is designed to meet the current OSHA regulations for forklift training.

With the 6 video/DVD Site Specific Module section, it is one of the most comprehensive forklift and material handling equipment safety training programs on the market today.

This package includes:

- **1017g** Forklift Training
- **1018g** Forklift Site Specific Mod. (6 Programs)
- **1019g** Experienced Operator Training
- **ftpwm01** Written Materials CD (English Only)

Written Materials on CD-ROM Includes (English Only):
(Spanish Test Questions and Answers Key Available)

- Written forklift training manual
- Operator handout booklets
- Instructor training manual
- Sample lesson plans
- Operator evaluation checklists
- Operator maintenance checklists
- 50 test questions/answers
- Forklift License
- Forklift Operator Certificate
- Over 250 JPEG pictures

DVD: \$500.00 VHS: \$395.00

1017g
Forklift Training

(General Industry) (English or Spanish) (60 Minutes)
This program is designed to meet the academic standards for training forklift operators in the rules and requirements prescribed by OSHA.

The programs covers:

- Engineering Principles
- Automobile/Forklift differences
- Load Centers
- Technical info for Lateral/Longitudinal Engineering
- Turnover/Tipover Prevention
- Forklift Operating Rules
- Operator Maintenance
- More

For the best value, we suggest purchasing this program with the pk2000 package listed above.

DVD: \$280.00 VHS: \$245.00

1018g
Forklift Site Specific Modules

(General Industry) (English or Spanish)
(6 full length programs on 1 Video or DVD)
The new OSHA rules require that forklift operators be trained in "site specific" hazards to which they may be exposed. We have developed this program to help meet the following requirements with complete full length programs on these topics:

- **1046f** Carbon Monoxide Poisoning
- **1013g** Electric Pallet Jacks
- **1010g** Battery Charging
- **1011g** Propane Safety
- **1003g** Forklifts and Pedestrians
- **1008g** Walkie Stackers

Check out the savings!!

If purchased individually, these 6 programs would cost over \$800 on DVD! **This offers you a savings of about \$579!**

We suggest purchasing this program with the pk2000 package listed above.

DVD: \$230.00 VHS: \$195.00

1019g
Training for Experienced Forklift Operators

(General Industry) (English or Spanish) (16 Minutes)
This video is designed for companies who have experienced, trained and certified forklift operators. This program updates the Engineering Principles and Technical Information of the OSHA standards.

DVD: \$160.00 VHS: \$125.00

1001g
Forklift Operator Training

(General Industry) (English or Spanish) (16 Minutes)
This forklift and material handling program is for forklift operators in the manufacturing environment. This is a 16 minute version for those organizations that don't need our entire package or the 60 minute operator training program. Teaches forklift operators engineering principles, forklift operator safety rules, and maintenance.

DVD: \$134.95 VHS: \$99.95

1013g
Electric Pallet Jack

(General Industry) (English or Spanish) (12 Minutes)
Examines proper safety procedures for operating and maintaining powered pallet jacks. The topics of this safety video include operator safety rules, daily maintenance procedures, and general safety procedures when operating this equipment. Also used to train manual pallet jack operators.

DVD: \$134.95 VHS: \$99.95

1008g
Walkie Stacker Safety

(General Industry) (English or Spanish) (16 Minutes)
This safety video was taped in a supermarket warehouse setting, however it can apply to any warehouse operation using electric pallet jacks. Demonstrates operator safety and maintenance procedures.

DVD: \$134.95 VHS: \$99.95

1015g
Aerial Lift Safety

(General Industry) (English or Spanish) (10 Minutes)
This safety video demonstrates proper donning procedures for body harnesses. Discusses the importance of regular equipment inspection, as well as other safety issues related to the use of aerial lifts.

DVD: \$134.95 VHS: \$99.95

1020g
Forklift Attachments

(General Industry) (English) (10 Minutes)
This video is a wonderful way to train all persons who work on or around forklifts and who deal with the use of attachments. It showcases the importance of inspecting all equipment used, safe and proper storage procedures and the safe way of traveling with materials.

DVD: \$160.00 VHS: \$125.00

1016g
Forking Around (Humorous)

(General Industry) (English) (10 Minutes)
From our "what's wrong with this picture" series, students are asked to identify the safety hazards in video clips. The video clips are then played back with narration and graphics depicting the errors.

DVD: \$134.95 VHS: \$99.95

1012g
Order Stacker Safety

(General Industry) (English or Spanish) (12 Minutes)
This electric powered vehicle is unique because it allows the operator to be elevated with the forks as they are raised and lowered. This program covers the specific safety rules, safe operating procedures and general operating principles associated with order stacker operations.

DVD: \$134.95 VHS: \$99.95

1002g

Forklift Instructor Training: A New Approach

(General Industry) (English or Spanish) (18 Minutes)

Three short programs in one: engineering principles, OSHA operating rules, and equipment maintenance for instructors to concentrate on each subject. Written materials available.

DVD: \$134.95 VHS: \$99.95

1003g

Forklift & Pedestrian Safety

(General Industry) (English) (6 Minutes)

Designed for non-forklift operators. Covers basic forklift operating rules, how to co-exist in the workplace with forklift operations. Good program for non-operators in warehouse, distribution settings.

DVD: \$134.95 VHS: \$99.95

1005g

Supervisors and Forklift Training

(General Industry) (English) (14 Minutes)

This program designed for supervisors who must oversee forklift operators. It's important that supervisors know the rules and requirements before they can successfully oversee forklift operators who have been trained and authorized to operate this type of equipment. Lack of supervisor knowledge about forklift rules and the non-enforcement of these rules can lead to accidents and injuries. Mildly humorous.
