

14001a

Safety Orientation for Nursing

(Healthcare) (English) (14 Minutes)

Program designed to provide basic safety orientation information to nurses. Program includes safe lifting techniques, needle stick prevention, basic infection control procedures, electrical safety and other important topics.

DVD: \$134.95 VHS: \$99.95

14002a

Safety Orientation for Administration

(Healthcare) (English) (14 Minutes)

Program designed to provide basic safety orientation information relating to office and administrative personnel. Program includes safe lifting techniques, electric safety, video display terminal safety and other related safety information. Also exposes administrative personnel to needle stick prevention and infection control information that should be communicated to every health care employee.

DVD: \$104.95 VHS: \$69.95

14003a

Safety Orientation - Custodial

(Healthcare) (English) (14 Minutes)

Program designed to provide basic safety orientation information relating to custodians/janitors. Program includes safe lifting techniques, electrical safety, chemicals and hazardous materials, needle stick prevention and infection control procedures.

DVD: \$104.95 VHS: \$69.95

14004a

Hazard Communication (Right to Know) for Nursing

(Healthcare) (English) (9 Minutes)

Program meets OSHA requirements for training employees in material safety data sheets [MSDS], proper labeling of chemicals and hazardous materials.

DVD: \$104.95 VHS: \$69.95

14005a

Hazard Communication (Right to Know) for Administration

(Healthcare) (English) (9 Minutes)

Program meets OSHA requirements for training employees in material safety data sheets [MSDS], proper labeling of chemicals and hazardous materials.

DVD: \$104.95 VHS: \$69.95

14006a

Hazard Communication (Right to Know) - Custodial

(Healthcare) (English) (9 Minutes)

Program meets OSHA requirements for training employees in material safety data sheets [MSDS], proper labeling of chemicals and hazardous materials.

DVD: \$104.95 VHS: \$69.95

14007a

Accident Causes & Prevention

(Healthcare) (English) (10 Minutes)

Excellent program for all health care employees. Targeted at the cause of most accidents, unsafe acts. Explains how employees can reduce and eliminate accidents and injuries through safety awareness and attention to the job, job procedures and safety rules.

DVD: \$134.95 VHS: \$99.95

14008a

Lifting Patients From Beds

(Healthcare) (English) (12 Minutes)

Designed for anyone required to lift patients from beds and the prone position. Explains proper body mechanics, procedures, and tips to help prevent back injuries.

DVD: \$134.95 VHS: \$99.95

14009a

Lifting Patients From Chairs

(Healthcare) (English) (8 Minutes)

Designed for anyone required to lift patients from chairs or the sitting position. Explains proper body mechanics, procedures and tips to help prevent back injuries.

DVD: \$104.95 VHS: \$69.95

14010a

Back Safety for Health Care Providers

(Healthcare) (English) (9 Minutes)

Excellent program for all employees. Explains how the back works, body mechanics and how each employee can make the proper decision when lifting anything, even in awkward or unusual situations.

DVD: \$104.95 VHS: \$69.95

14011a
**Hazardous Energy Source -
Lockout/Tagout**

(Healthcare) (English) (10 Minutes)

Program designed to meet new OSHA standards for locking-tagging equipment during maintenance and servicing of equipment. Designed primarily for engineering personnel, however, to meet the new OSHA rules, employees who use equipment must be properly trained in lockout-tagout procedures.

DVD: \$134.95 VHS: \$99.95

1021b
Needlestick Prevention

(Healthcare) (English) (13 Minutes)

This program designed for anyone using needles or sharp objects in the performance of their duties, but primarily Healthcare / Medical / Medical Workers. Due to recent Federal Legislation and accompanying changes to OSHA's Bloodborne Pathogen standards, needlestick injury prevention is a continuing problem in Healthcare / Medical / Medical. New, safer needles are required, as are other "engineering controls" to help reduce the serious needlestick problem. This program explains the new standards and more importantly demonstrates new needle design and safer needles that are now commercially available.

DVD: \$134.95 VHS: \$99.95

14012a
How to Prevent Slips & Falls

(Healthcare) (English) (14 Minutes)

Excellent program for making employees aware of slip and fall dangers and how to prevent those often serious injuries. Covers floors, waxes, runners and other aspects of slip/fall prevention.

DVD: \$134.95 VHS: \$99.95

14013a
Sanitation in Health Care Cafeterias

(Healthcare) (English) (12 Minutes)

Designed for those employees working in cafeterias, including clean up personnel, dishwashers, food service, chefs/cooks and even engineer maintenance personnel. Explains bacteria, food handling procedures, hygiene, cleaning/sanitizing procedures, and more.

DVD: \$104.95 VHS: \$69.95

14014a
**Sanitation & Disinfection in Health
Care Environments**

(Healthcare) (English) (10 Minutes)

Explains procedures for proper sanitation and disinfection, environmental and personal hygiene. Good program for all employees and can be used to supplement your health care facilities' policies and procedures.

DVD: \$104.95 VHS: \$69.95

14015a
**Universal Precautions - Infection
Control Procedures**

(Healthcare) (English or Spanish) (8 Minutes)

Designed for health care providers but is an excellent program for engineering, custodial, security administration and other personnel who provide services in the health care environment. Excellent refresher for nursing, lab and other providers who normally receive additional universal precautions training.

DVD: \$104.95 VHS: \$69.95

14034a
**Bloodborne Pathogens - The Complete
Program**

(General Industry) (English) (25 Minutes)

This program covers all aspects of an Exposure Control Plan including information relating to Hepatitis B, C and HIV and includes written materials CD-ROM.

This program covers modes of transmission, PPE, safe work practices, emergency procedures and record keeping requirements.

This program utilizes the expertise of Dr. Jeffery Kahn, Liver Transplant Surgeon from the University of Southern California. Dr. Kahn discusses the different types of viruses and bloodborne pathogens in general.

This is an excellent training program for both medical and industrial use and can be used for training those individuals who reasonably anticipate occupational exposure. This program is presented in such a way that it is also a great training tool for those who do not anticipate occupational exposure.

Written Material CD-ROM includes:

- OSHA Bloodborne Pathogens Manual
- Bloodborne Pathogens Leader's Guide
- Bloodborne Pathogens Employee Handout
- BBP Exposure Control Plan Guidelines
- Exam and Answer Key

DVD: \$160.00 VHS: \$125.00

1024b

**BBP and Needlestick for Healthcare /
Medical / Medical Workers**

(Healthcare) (English or Spanish) (11 Minutes)

This is a short program that surveys the issues of exposure to Bloodborne pathogens and prevention of needlestick injuries for the Healthcare / Medical / Medical worker. These issues include universal precautions, exposure to BBP, who is at risk, appraising the risks, personal protection, and disposal of biohazards. New technologies, like re-engineered syringes, new laws, and recently proposed Federal Acts are also surveyed.

DVD: \$134.95 VHS: \$99.95

14023a

Hepatitis C

(Healthcare) (English) (15 Minutes)

This video discusses what Hepatitis C Is and how to prevent contracting the disease. This video provides great examples of things to do to help avoid catching the Hepatitis C virus. It also explains how the virus can affect the body once a person has contracted it.

DVD: \$160.00 VHS: \$125.00

(888) 443 – 1600

14035a

**Tuberculosis Respiratory Protection -
Health Care Services**

(Healthcare) (English) (10 Minutes)

Health care workers exposed to patients with infectious Tuberculosis require protection from that disease. Because the use of engineering controls (such as isolation rooms and ventilation) may not completely control the TB hazard, respiratory protection is needed. When respirators are used, OSHA requires specific standards to be followed. This program explains the necessary information to achieve compliance with regulatory standards. A must for all hospitals and medical settings working with TB exposures.

DVD: \$160.00 VHS: \$125.00
