Slips and Falls in the Trucking Industry
(Trucking Industry) (English) (13 Minutes)

Most injuries in trucking are caused by truck drivers slipping and falling from their vehicles during entry and exit from the vehicle. This training program was developed to train truckers how to properly enter/exit the vehicle, using the three point triangulation system, in addition to the proper footwear and other safety basics. This program, if implemented will greatly reduce accidents and injuries from trucking slips and falls. Good for all truck drivers, not just 18 wheelers.

DVD: \$134.95 VHS: \$99.95

Level 1 Inspection

(Trucking Industry) (English) (15 Minutes)

Roadside inspections are part of life for professional drivers. The main purpose of roadside inspections is to give the commercial motor vehicle and its driver and on-the-spot safety check. If you know your truck and you're sure it's ready for inspection, it will make the stop little more than a slight delay. This program prepares drivers for these inspections and teaches drivers from the inspectors what they are looking for and how to pass these inspections.
